# 72-hour emergency kit

PREPAREDNESS / EDITION 2026-10-02

**BUILD AROUND YOUR HOUSEHOLD**

Use what you own first. Match quantities to people, days and medical needs. Supplies are preparation, never a reason to delay escape.

## Household considerations.

Start with the people in the home: drinking water, medicines, infant feeding, sensory access, safe light and pet care. Choose who will carry shared items. A 72-hour kit is a planning starting point, not a guarantee that a disruption ends after three days.

## Sources & limits.

Civilian educational guidance. Linked references may use U.S. emergency systems; local warning methods, laws, services and conditions differ.

Source-linked editorial guidance. Not independent clinical or specialist certification. Training and product-specific instructions remain essential.
